

Article II, Definitions:

Amend "Structure" to read:

A structure is any production or piece of material artificially built up or composed of parts joined together in some definite manner; any construction, including dwellings, garages, buildings, mobile homes, signs and sign boards, towers, poles, antenna, swimming pools, decks, fences four (4) feet in height, uncovered steps, access steps required to negotiate changes in site elevation, and sidewalks, drives, paved areas and patios which protrude less than twelve (12) inches above the finished site grade.
